

## 24 YEARS AGO TODAY

(Taken from the old files of the Bulletin, March 7th, 1883.)  
Spring weather is here.  
There was a light rain last night.  
Heavy rain east of battleford fell last Monday.  
R. F. Shaw left for Calgary on Tuesday last.

Ice is being stored in large quantities this spring.  
Methodist revival meetings are well attended.

J. Brown returned from Beaver Lake on Friday last.  
There was no school on Friday owing to the illness of the teacher.

J. Lamoureux is canvassing for the northwest council elections.

The H. B. Co. Pease river mail packet arrived on Tuesday and left yesterday.

Colin Fraser started three dog teams with goods for Island Lake this morning.

The first of the series of Tuesday Bulletin extras appeared on Tuesday afternoon last.

Joe McDonald's sleigh left for Red Deer on Wednesday, to bring in deer for the H. B. Co.

The saw mill is cutting lumber now nearly as fast as it can be hauled away.

J. Haney, Thos. Henderson and Thos. Stewart left on Thursday for their mining location on the river.

Moose and small deer are numerous in the Beaver Hills south of Fort Saskatchewan, and the Indians are making a good hunt.

At St. Albert on Wednesday, March 20th, the first of the Anniversary celebrations V. P. and his friends were retiring. The business will be continued by the senior partner, Mr. Sinclair.

Thos. Dunlop arrived from Calgary on Monday with reports for Sinclair & Co., Ross Bros., and Frank Oliver.

He left again on Tuesday taking a load of coal to Blind River for the stage company.

Seed wheat of first class quality is being offered freely at from \$1.50 to \$2 per bushel. The wheat is becoming gradually developed that there was great deal more good wheat in the country last season than most people imagined.

Working horses and stock generally have seldom been as fat as they are now, although the cold has been severe. This is accounted for by the good crop of oats last season. There is a better in this stock than toward stock instead of winter raising.

The plan of the survey of the Battle River Selkirk or Dutton section arrived by the last mail. Forty-eight claims are surveyed, 24 on each side of the river. The claims have 20 chains or one-fourth mile river frontage, each section being divided into four claims.

The depth of the claims governed by the section lines in the river.

The voting on the erection of Sturgeon school district took place on Tuesday, March 3rd. Very little interest was taken, as there was no division of opinion on the matter.

Only five votes were polled and these all for the district. No objections were made at the recount, and the returns will be forwarded to Regina by the next mail.

On Friday afternoon J. C. Cameron was brought before Capt. Greenback and W. Anderson, Indian agent. J. C., charged with having given one Daniel Dugan (the informant) a barrel which takes treaty, a drink of intoxicating liquor during the first or second week of November last.

A Watson appeared for the defence. Dugan sworn to above statement. It was proven by the evidence of Mr. Cameron and his clerk, E. T. Lander that Mr. Cameron left Edmonton on the 10th of October last, and did not return until the 1st of December. The case was dismissed. Mr. Anderson remanded Dugan having no proof against him and warned him against doing the same again. Dugan was northward arrested and charged with being drunk and raising a disturbance about the 11th of December. He pleaded guilty, and on being asked what he got the liquor from the interpreter, J. Calder. He was sentenced to two months' imprisonment with hard labor without the option of a fine.

J. Youmans, mission teacher, arrived from Whitefish Lake last evening. He states that the roads are good. The weather is mild and the hillsides bare. There has been heavy traffic past Whitefish Lake to Lac du Riche this winter. There were three grand weddings at Whitefish Lake this winter. At that of Benjamin Sinclair, Jr., to the daughter of Chief Joseph, of Beaver Lake, nearly 300 guests were present.

Voting on the Belmont school district came off on Saturday, Feb. 26th, and resulted in a majority of 24 votes for the district. The total vote polled was forty, 32 for and 8 against, those opposing being chiefly parties in the north western portion of the district. The day passed off very quietly.

Two weeks ago the prospects of a spring freshet were good, but the winter weather has reduced the depth of snow so greatly as to do away with any danger that might have existed.

## Criminally Negligent.

Guelf, Ont., March 6.—Eight months in the local jail is the sentence imposed by Judge Riddell on Engineer Kennedy, who was the throttle of a train which caused a fatal collision near Harrison on January 27th by taking the wrong line. Kennedy was convicted of criminal negligence. Conductor Fleming and brakeman Lane were let off on suspended sentence.

## To Lecture on Forestry.

Ottawa, Ont., March 7.—Knobel, Dominion inspector of forest reserves, has gone west to lecture on forestry. Among the points he will visit will be Winnipeg, Edmonton, Calgary, Lethbridge, Prince Albert, Regina, Battleford and Brandon. He will deliver his first lecture at Lac Seul on Friday next.

## AN INVESTMENT OPPORTUNITY OF GREATEST POSSIBILITIES

PEMBINA is situated on the Pembina River, 65 miles west of Edmonton, where the Grand Trunk Pacific crosses the great Pembina River. This railway is building a bridge at this point, and Pembina will be the terminus of the road for some time to come. The Canadian Northern Railway also crosses the Pembina River, one quarter of a mile north of where the Grand Trunk crosses. PEMBINA will thus be enclosed on the south by the Grand Trunk Pacific Railway and on the north by the Canadian Northern Railway, offering railway facilities not exceeded by any town in Western Canada.

PEMBINA is the centre of the finest farming district in the Dominion of Canada. The land surrounding Pembina is suitable for mixed farming. Over 2,000 settlers have already taken up land within a radius of twenty miles of Pembina.

PEMBINA is also the centre of the coal fields. There have been over 15,000 acres of coal lands taken up within six miles of PEMBINA. The Government having 320 acres.

PEMBINA will be the shipping point for all this coal.

PEMBINA is the timber centre. No one needs to be told how valuable lumber is in a new country. On the PEMBINA and its tributaries there are over 700,000,000 feet of timber. This timber is being cut and will be cut more rapidly in the future.

PEMBINA will be the shipping point for all this timber, the logs coming down the River Pembina to where the railway crosses at PEMBINA.

The outlook for PEMBINA from a manufacturing, farming, and, in fact, from any standpoint, is of the brightest.

Property is already being resold in PEMBINA at a profit of 122 per cent.

There is probably not as good an investment in Canada to-day as PEMBINA offers. Remember, though the railway has not yet reached PEMBINA, there are over seventy buildings erected, including a Methodist church, and two other churches have their location.

The opportunity to buy land in PEMBINA should not be overlooked by any intelligent man or woman, and it does not require you to be rich to make a big profit on your investment. Many of our greatest financiers and statesmen advise purchase of real estate as the safest investment. Ex-President Grover Cleveland said—

"No investment on earth is so safe, so sure, so certain to enrich its owner as undeveloped realty. I always advise my friends to place their savings in realty in some growing city. There is no such savings bank anywhere."
